

## ***For Trade Customers (UK & International)***

*Wilbert had his head examined.....*

*– And then gave up the shrink!*

Yes! It's true and coming your way - Shrink-wrap free  
**Nutscene™** twine.

Nutscene's entire range of twine is now entirely presented free of shrink wrap. It's back to basics with a beautiful new branded recyclable authentic vintage label across the entire range. This label has been redrawn from our archives, and represents the authenticity of our quality garden twines.

Wilbert is fit to burst with pride as his range returns to the carbon-free spools, balls and reels he once knew back in 1922.

Not only natural and from sustainable sources, Nutscene™ twine hits the spot for all environmentally aware customers.

Jute, Sisal or Flax - Nutscene is the natural choice™.

**Notes:** *Requests for high res images of products will be promptly supplied.*

*'The Snippet Twine Dolly' RRP is £12.99*

*Nutscene have been manufacturing quality garden twines from jute since 1922. The name Nutscene was derived from their renowned green jute twine, which once tied round the plant was 'not seen'. The patented 'Greentwist' centre pull lock tie spool of twine was first produced by Nutscene.*

*Offering a design-led range of gift ware, designed in-house, Nutscene's range uses natural fibres and materials such as jute, sisal, flax, wood and English terracotta.*

*Nutscene's all female team would offer an interesting and charismatic interview. We are one of the last remaining jute manufacturers in the UK. Privately owned, forward thinking and proud to produce British products, we have a remarkable heritage and an exciting future ahead in the gardening industry.*
